

Tagliabue Sistemi at ISE, Amsterdam, from February 3-5, 2009

The choice of participating at ISE in Amsterdam represents a breakthrough for Tagliabue Sistemi and a new open challenge: Tagliabue Sistemi competes with the major global players in the professional AV sector and electronic systems integration; the intention is to acquire motivating forces for its production in order to be able to answer with always major efficacy to the demands of companies that will enquire on the Italian territory; the aim is also to widen its sphere of action with new points of reference in Europe. You can find the Tagliabue Sistemi stand at Booth number 11G42, where three absolute novelties of our production will be introduced in preview. You can find the relative data sheets within these Punto News pages.
